SADC REGIONAL AGRICULTURAL INVESTMENT PLAN (RAIP)

RAP - SPECIFIC OBJECTIVES

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

Enhance sustainable agricultural
**production, productivity &
competitiveness**

Reduce social &
economic **vulnerability** of
population:

- food & nutrition security
- changing economic /
- climatic environment

**Specific
Objectives**

Improve:

- regional & international
trade
- **access to markets** of
agricultural products

Improve private & public sector
engagement and investment in
agricultural value-chains

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

Regional Agricultural Investment Plan (RAIP) (2017 – 2022)

RAIP PRIORITY PROGRAMMES

RAIP - PRIORITY PROGRAMMES

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

1. Increased agricultural production, productivity & competitiveness

Regional food **self-sufficiency**
in basic strategic commodities

Reduce
**hunger &
poverty**

Objectives

Increase
Incomes

Become major **regional** & global
suppliers of commodities

RAIP PRIORITY PROGRAMMES

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

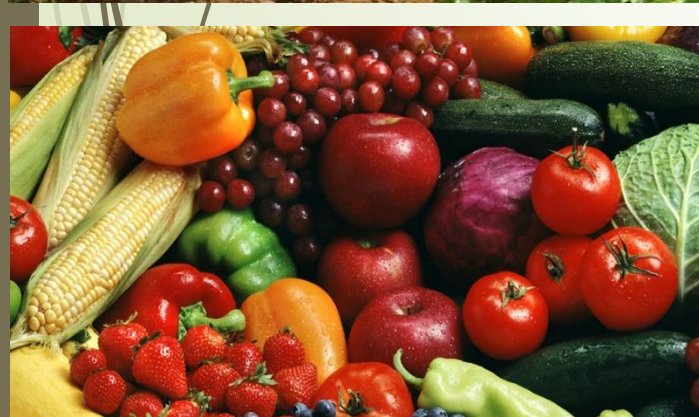

1. Increased Agricultural Production, Productivity and Competitiveness

Objective: To attain **regional food self-sufficiency** in basic strategic commodities, **increase incomes**, **reduce hunger and poverty**, and become **major regional and global suppliers** of selected strategic commodities

2. Increased Access to Markets and Trade for Agricultural Products

Objective: To improve the **efficiency of regional input/output markets** and **stimulate broad farmers' participation** in domestic, regional and international markets, improve the regional and international trade regulatory environment, and improve the development of agricultural marketing infrastructure

RAIP PRIORITY PROGRAMMES

7

3. Increased Investments in and Access to Finance for Agriculture

Objective: To stimulate **private sector investment** into agriculture as well as **input, output and financial markets** in the Region

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

4. Reduced Social and Economic Vulnerability in the Region

Objective: To **reduce vulnerabilities** in the agricultural sector brought about by **climate change and variability, socio-economic factors such as gender inequality, HIV/AIDS** and migration, and food insecurity in a changing economic environment.

RAIP PRIORITY PROGRAMMES

8

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

5. Improved Food and Nutrition Security in the Region

Objective: To generate, analyze and disseminate a varied range of information including vulnerability, malnutrition and food security, markets and trade, agro-meteorology, and pests and disease information.

SADC AGRICULTURAL DEVELOPMENT FUND (ADF)

INSTRUMENT – BASED IMPLEMENTATION MECHANISM OF THE RAIP

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

APPROACH FOR IMPLEMENTATION OF RAIP

- The Regional Agricultural Investment Plan (RAIP) will be implemented using an *instrument-based mechanism*.
- The instruments will provide **stimulus** in the form of **incentives and investment** to *leverage* public and private sector financing into agriculture.
- This approach was first endorsed by Senior Officials at the meeting held in Pretoria, South Africa in December 2015, then subsequently at a second meeting held 4 – 5 April 2016
- Finally the approach, the **SADC Agricultural Development Fund (ADF)** was approved by SADC Council in August 2017 in Pretoria, South Africa

Agricultural Development Fund

Unique Features of RAIP Facilities

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

1. Incentive-based

- Lowered initial costs
- Leverages on public & private sector funding

2. Flexibility in mix of Measures to achieve individual country /programme requirements

- **Effective coordination & harmonisation** of Regional Agricultural Investment Plans (RAIP) & National Agricultural Investment Plans (NAIP)

- Provides clear rules & regulations of engagement

Agricultural Development Fund

Unique Features of ADF Facilities (2)

12

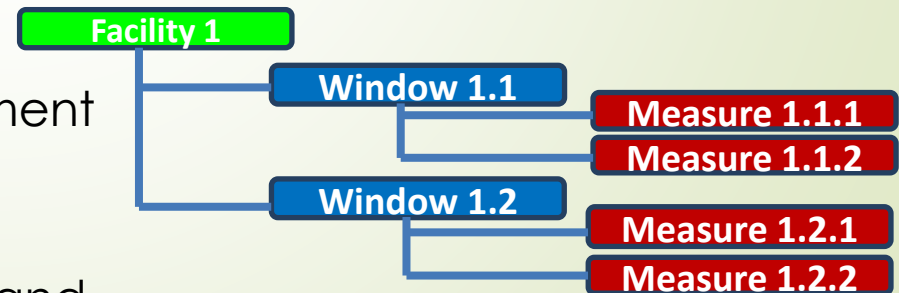

3. Donor / development partner / inter-departmental or organisational entry points

Enforcement of principles of partnership, inclusivity participation, coalitions, etc.

4. Effective monitoring & evaluation

5. Seven Facilities

- i. Value chains;
- ii. Agricultural infrastructure development;
- iii. Markets & trade;
- iv. Agricultural information management system;
- v. Food & nutrition security;
- vi. Environment & natural resources; and
- vii. Governance & institutional development.

Objectives of the Agricultural Development Fund Facilities

13

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

1. The **Value Chain Facility** whose objective is to support the effective and efficient value addition processes for selected agricultural commodities and products;
2. The **Agriculture Infrastructure Development Facility** whose objective is to enhance access to agriculture infrastructure including water, energy, land, roads, storage and other relevant agriculture infrastructure in order to ensure effective and efficient production systems for improved productivity and heightened competitiveness;
3. The **Market and Trade Facility** which focuses on the marketing of, and trading in, agricultural products by strengthening institutional and regulatory frameworks, and improving access to market and trade information;
4. The **Agriculture Information Management Facility** which aims to promote agricultural development by providing policy makers, planners and economic players access to reliable and timely information that is necessary for policy development, emergency preparedness, planning, and decision making;

Objectives of the Agricultural Development Fund Facilities

14

CCARDESA
Centre for Coordination of Agricultural Research and Development for Southern Africa

5. **The Food and Nutrition Security Facility** which aims to support preparedness, response and recovery from food and nutrition security related disasters;
6. **The Environment and Natural Resources Facility** which aims to improve the effective, efficient and sustainable utilisation of environmental and natural resources with the view to increasing resilience of the agricultural sector while also reducing or limiting Greenhouse Gas (GHG) emissions; and
7. **The Governance and Institutional Development Facility** which aims to provide financial and technical support for the establishment of institutional, governance and management structures required to implement the RAIP at both the regional and national levels; and provides for the formulation of the rules, regulations or guidelines for measures under all the Facilities at regional and national levels.

ALIGNMENT OF ADF WITH OTHER SADC STRATEGIC FRAMEWORKS

Industrial Development & Market Integration

Sustainable industrial development, trade integration and financial cooperation

Enhance the productive capacity, productivity and competitiveness

Enhanced export diversification, natural resources beneficiation, value-addition and increased regional trade and employment generation.

Enhanced strategic partnership between governments, the private sector, the civil society

Harmonize and simplify trade procedures

Initiate regional trade facilitation schemes

Support and guide national trade facilitation implementation

Reduce transaction costs in SADC Member States

Finance & Investment Protocol seeks to foster harmonisation of the financial and investment policies of the State Parties in order to make them consistent with objectives of SADC and ensure that any changes to financial and investment policies in one State Party do not necessitate undesirable adjustments in other State Parties.

SADC Regional Development Fund (RDF)

AGRICULTURAL DEVELOPMENT FUND

Value Chain Facility

Agriculture Markets and Trade Facility

Agriculture Infrastructure Development Facility

Infrastructure in support of Regional Integration

Improved and integrated regional infrastructure

Transport Master Plan: develop appropriate, integrated, safe, secure and efficient infrastructure capacity along strategic transport and development corridors

Water Policy: Water for Development and Poverty Reduction: containing policy provisions on water for basic human needs and for industrial development; water for food and energy security

Information and Communication Technologies (ICT) Sector Plan:

SADC Regional Energy Access Strategy and Action Plan: Improving energy access is a basic requirement both for sustaining the national level of economic development, for reducing poverty and allowing people to improve their standard of living.

SADC Renewable Energy Strategy and Action Plan (RESAP): whose objective is to explore options to increase the use of renewable energy in Southern Africa and to ensure that the regional energy strategy is aligned with global trends towards clean and alternative energy sources.

(Tourism) SADC Programme for Transfrontier Conservation Areas: is a model of community centred, regionally integrated and sustainably managed network of world class transfrontier conservation areas.

Meteorology Sector Plan: aims to provide infrastructure for poverty reduction through enhanced application of advances in climate sciences

Regional Infrastructure Development Master Plan (RIDMP)

Industrialisation Strategy and Roadmap

Trade Facilitation Programme

Finance & Investment Protocol

Regional Agricultural Investment Plan (RAIP)

- Crop Development Strategies
- Livestock Development Strategy
- Aquaculture Strategy
- Forestry Strategies
- Law Enforcement & Anti-Poaching Strategy
- Agricultural Information Management Systems
- Sustainable Environment Strategies
- Food & Nutrition Security Strategy

AGRICULTURAL DEVELOPMENT FUND

- Agriculture Information Management Facility
- Environment and Natural Resources Facility
- Food and Nutrition Security Facility
- Governance and Institutional Development Facility

SADC Disaster Preparedness and Response Strategy and Fund whose outcome is to substantially reduce the negative impact of disasters on losses of lives, livelihoods and health and in the economic, physical, social, cultural and environmental assets of persons, businesses, communities and countries in the SADC Region through building a culture of safety and disaster resilience by strengthening the preparedness and response for early recovery.

Gender

- Regional Multi-Dimensional Women Economic Empowerment Programme
- Strategic Plan on Combating Trafficking n Persons especially women and children requires, among others, implementation of strategies that reduce poverty and provide decent work for all, including youth of working age.

Regional Vulnerability Assessment and Analysis (RVAA) Programme whose goal is to reduce poverty and vulnerability through climate-resilient livelihoods in the SADC Region for enhanced regional and national response to climate change, poverty and livelihood vulnerability.

Youth

Orphans, Vulnerable Children and Youth Strategy with the objective to To integrate vulnerable children and youth as priority in all aspects of the development agenda of SADC at policy, legislative and intervention levels, with a focus on providing them with comprehensive services in a holistic manner

Education, Science & Technology

Strategic Plan on Science, Technology & Innovation whose goal is to to create an enabling environment to harness STI as a tool to address socio economic challenges for regional sustainable development

Regional Sovereign Risk Insurance Mechanism

SADC Resilience Framework

HIV/AIDS

SADC HIV and AIDS Strategic Framework whose mission is to control and reverse the HIV and AIDS epidemic and its impacts

SADC Regional Sovereign Risk Insurance Mechanism

Disaster Risk Reduction Programme

Improved human capacities for socio-economic development

Stakeholder Involvement (formulation and implementation) (private sector, civil society, public sector, development partners, NGOs,)

Improved peace and security cooperation

Special Programmes of Regional Dimension

Peace and Security Cooperation
